Economy Lightweight - BT Series

Perfect for when the occasional need for an extra table pops up, these resin multipurpose tables are both lightweight and durably constructed with a sleek design. The tables legs can be folded down for easy storage. Ideal for both indoor or outdoor use with its powder coated tubular frame and 45mm thick top.

Heavy Duty Lightweight - 61000 Series

Core-A-Gator is everything a folding table should be: rugged, strong yet lightweight, thanks to its unique corrugated center and extruded aluminum frame. The patented leg-locking mechanism and available storage trucks make for quick set-up and tear-down, too.

Plywood Core Laminate - 62000 Series

Folding tables are strengthened by a steel support apron while patented Safe Edge helps hands and fingers avoid cuts and scratches. When the table is not in use, a spring clip locks table legs in a folded position and the corner supports give the top surface added protection while stacking.

Available in many sizes and four different colour laminate options.

Hundreds of chair options!
