

Office Furniture

MISSION STATEMENT

We exist to create efficient and attractive workplace environments, embracing all aspects of your project, from concept to completion, We also strive to maintain a secure and elevating work environment for all of our employees.

VISION STATEMENT

We will earn the right to be the "Company of your Choice" when considering improvements to, or a transformation of, your workplace environments!

VALUES STATEMENT

- Integrity:** Every relationship and transaction is governed by honesty, trust and sincerity.
- Excellence:** We strive for Perfection... Every time...
- Growth:** Consistent, sustainable development of relationships, individuals, and company prosperity.

ENVIRONMENTAL POLICY

The environment is everybody's to enjoy and everybody's to preserve. This is where we can play our part. At Accent Environments we are proud to provide products that qualify for Level, LEED, SCS, FSC or Greenguard Certification. Our products are all sourced from sustainable resources to reduce impact on the environments.

We pay strict attention to ensure efficiency in transporting our products from receiving to shipping, to reduce greenhouse gases, but still succeeding in delivery customer satisfaction.

In our corporate office and warehouse we follow our company environmental policy. All used paper is shredded and where possible any other materials that can be recycled are recycled to help reduce waste and preserve the environments.

OUR LOCATIONS

HEAD OFFICE:

- #211 - 2nd Avenue North
- Stonewall, Manitoba R0C 2Z0
- Ontario
- North Dakota
- Nunavut
- Minnesota

"The design team on behalf of Accent supervised the production and installation of relevant furniture sections.

...provided excellent service and showed an unusually high level of resourcefulness. Where call-backs or servicing has been required the response has been prompt and efficient.

...exceptionally high level of service and would be an asset to any construction project." - **Ryan**

Testimonials

"Accent helped us go through the floor plan for the new office, and really provided advice that made us comfortable with them.

We were impressed with the professionalism that your office had.

Now several months after the completion of our purchases, we still can get help with any issues that we may have, and your service is something that we really appreciate. You have surpassed our expectations and continue to make us please with our decisions." - **Kyle**

Our passion for excellence is evident in everything we do...

- Modular lounge seating and tables designed to suit a wide range of spaces
- Atessa is built to serve high-traffic, public areas

Cassia Lounge

- Cassia's sleek, linear profile gives off a fashionable, contemporary vibe
- Steel framework provides enhanced structural integrity
- Low-profile nylon glides protect floors from damage
- Available in one, two or three seat options

Occasional Tables

- Engineered plywood construction reinforced by steel bracketing for enhanced structural integrity
- Powder-coated steel frame
- Available in a variety of sizes, shapes and heights

OPEN PLAN OFFICE

OPEN PLAN OFFICE

Workshelf

Combining power, creative storage and floating desk tops, Workshelf is design driven yet still very functional and affordable.

Parkway

Parkway is designed around a center support, this gives it the ability to have minimal legs to give maximum flexibility.

OPEN PLAN OFFICE

UpSide Height Adjustable Desks

Encourage movement and promote efficient posture effortlessly by working at varying levels of comfort

Let Accent's design team help you integrate adjustable height into your existing desks.

Multistation

Multiple-user workstations or private offices within an open space is what Multistation does well.

OPEN PLAN OFFICE

Lavaro

- Lumbar support adjusts by simply lifting and lowering the lumbar pad.

- Particleboard core top
- Laminate surface with balancing back sheet
- Available in round, square or square
- Available in standard, bar height and standing height

Civitas Cafe Table

- Particleboard core top
- Laminate surface with balancing back sheet
- Available in round, square or square
- Available in standard, bar height and standing height

ERGONOMICS

ERGONOMICS

Articulating Keyboard Tray

- Intuitive height adjustment that require no locks, levers or controls
- Dial-a-tilt positioning that allows you to type at the angle most comfortable for you
- Ultra-thin profile to provide maximum knee clearance

Single Adjustable Monitor Arm

- Supports 95% of monitors in use today
- Integrated cable management hides cables within the arm
- Removable 180 degree stop protects walls and panels

Double Adjustable Monitor Arm

- Supports 95% of monitors in use today
- Monitors move independently from each other
- Height and angle adjustable arm
- Integrated cable management

Laptop Holder

- Dramatically improves user comfort and reduces the risk of long-term injury by promoting good ergonomic posture while using a laptop computer
- One-touch 360-degree swivel base for efficient collaboration and screen sharing

ERGONOMICS

CPU Holder

- The CPU Holder allows users to securely store hardware under the desk, so it's off the work surface and off the floor.
- Rotates a full 360 degrees for easy access to cables and ports, while also protecting the unit from dirt and other workplace hazards

Hokki Stool

- People who need to fidget and be in constant movement will gain great benefit by sitting on a Hokki Stool. The Hokki Stool facilitates free mobility under controlled conditions thanks to rounded set-down surfaces which stimulate the full apparatus of movement.
- Other people who are somewhat lethargic will be stimulated by keeping their core engaged, thus enabling proper blood flow and circulation to the brain.

Freedom Saddle Stool

- The triangular cushion of the Saddle Stool encourages users to sit with their thighs lower, opens up the hips and allows for increased circulation.
- The design of the cushion allows for multiple sitting positions and delivers ultimate comfort no matter the work environment

ERGONOMICS

Height Adjustable Desks

- People who spend most of their waking hours doing sedentary tasks are at higher risk of adverse health outcome even if they exercise the same amounts as those with less sedentary lifestyle.
- Reduction in sitting time correlates significantly with improved outcomes for upper back and neck pain as well as various mood states.
- Standing desks can also save hard costs to employers. There is a quick return on investment with height adjustable workstations as health and safety costs are saved and employee productivity is increased.

- Standing burns 60 more calories per hour than sitting and can help reduce the risk of obesity, cardiovascular diseases, diabetes and premature mortality
- Standing also encourages movement that our bodies need for adequate blood circulation
- Standing itself is no better than sitting, it is rather the ability to both, sit and stand during work hours which will improve a person's health
