Folding Tables

Perfect for when the occasional need for an extra table pops up, these resin multipurpose tables are both lightweight and durably constructed with a sleek design. The tables legs can be folded down for easy storage. Ideal for both indoor or outdoor use with its powder coated tubular frame and 45mm thick top.

Need a place to store your tables? These caddies store rectangle tables and round folding tables.

Folding tables are strengthened by a steel support apron while patented Safe Edge helps hands and fingers avoid cuts and scratches. When the table is not in use, a spring clip locks table legs in a folded position and the corner supports give the top surface added protection while stacking.

Available in many sizes and four different colour laminate options.

Core-A-Gator Folding Tables

Core-A-Gator is everything a folding table should be: rugged, strong yet lightweight, thanks to its unique corrugated center and extruded aluminum frame. The patented leg-locking mechanism and available storage trucks make for quick set-up and tear-down, too.
