

 **NOOK**®

 **ACCENT**
ENVIRONMENTS

Nook is an ingredient for dynamic space, focused on helping all brains perform, allied with flexibility, circularity and personalization.

Nook improves people's enjoyment while providing:

- Personal space
- Individualized lighting
- Zonal acoustic control

All in a plug-and-play mobile pod which can be equipped with anti-microbial surfaces, graphics, technology and storage.

Arrange Nooks in a row for greatest safe density, gather in clusters, join together for larger parties, and screens for single diners. Modular design allows adaptation.

Huddle Pod

Solo Booth

With hospitality facing enormous challenges related to COVID-19, we have a ready-made solution which will quickly and easily help you to

- Tackle social distancing & density issues
- Increase dining volume
- Improve personal dining experience
- Add space flexibility
- Generate high interest levels

All in a flexible manner which can be adjusted in the future.

Designs to match your space!
