Soft Seating

Sea

The Sea collection is a classic. With its roll arms, and homey feel, it provides a haven for staff amongst the pressure of life. Its clean, straight lines display 'no added fluff', giving it a simple feel, and, in this case simple, is better! Available in a one, two and three-seat configuration.

Gem

The Gem Lounge Collection features a softer aesthetic with rounded corners that ensure long-lasting quality in any high-traffic area. Gem also features a seamless seat front that provides enhanced cleanability and durability. Available in a one, two and three-seat configuration.

Ivy

The Ivy Collection features a robust metal sled base design that provides additional strength and an attractive, contemporary aesthetic. The sled base is equipped with low-profile nylon glides to protect the floor from damage. Available in a one, two and three-seat configuration.

Ace

The Ace Collection was created with diversity in mind. Ace provides plenty of seating options for either collaboration or independence and enables you to create your unique look and layout.

Ace Tables

Perfect compliment to the Ace seating!

Via

Via chairs, allow for both independent work or collaboration in groups of two. The curve on one side allows for you to sit and work independently without distractions. And the swivel mechanism enables the user to turn away from whatever distraction there may be, to ensure complete focus. With the curve available on either side, you can have one of each together to provide a quiet, environment for two colleagues to work together.
