# MOSS

*Naturally grown, hand-picked Scandinavian Reindeer Moss, ideal for absorbing noise from multiple directions.*

- ✓ Maintenance free
- ✓ Helps create a relaxing environment
- ✓ Easy installation
- ✓ Design to your needs!

## Convex

Convex offers a wide range of creative and functional possibilities with its distinct geometric shapes and organic, oddly fascinating surface.

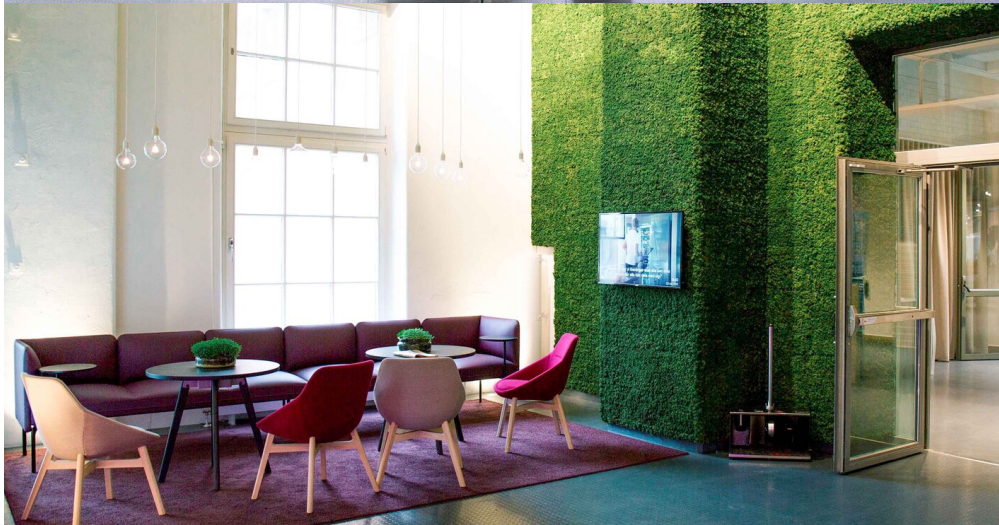

## Ceiling

Ceiling can blend in or pop out. Use it to give your space a comforting framing, patterns to emphasize the layout of the room, or combine it with harmonizing wall coverings.

## Pixel

When pieced together, the density of the moss creates a naturally acoustical wall system that is beneficial to the wellness of its surrounding occupants. The unique moss purifies the air by constantly removing airborne particles through a cycle of absorption and release of humidity.

**Create your own design today!**

*Use Moss to add sophistication and flair to your space.*
